**Brief Description**

Power Line is the premier magazine for the Indian power sector. It covers all segments of the sector – generation, transmission and distribution. It tracks key developments, analyses major trends, profiles noteworthy organisations, interviews top managers, features opinions of industry experts, tracks financings, covers technology developments, profiles people of interest and provides key data and statistics. It is a “must read” for any professional involved with the Indian power sector, be it a power producer or distributor, technology provider or contractor, “policy maker” or regulator, management consultant or financier. It is published monthly.
