**CORRIGENDUM-I**

**GEM BID REF. NO. GEM/2025/B/6280509 Dated: 03.06.2025**

**Replies to the bidder’s pre bid queries against the subject bid are as indicated below:**

<b>Sl. No. of BATC</b>	<b>Clarification sought</b>	<b>Proposed Reply</b>
General	<b>Scope Limited to Insulators only:</b> This tender pertains exclusively to insulators, while the hardware is already installed on the transmission lines. As such, the make, condition, and technical details of the in-service hardware are neither available to us nor covered in the tender documents	Relevant Hardware Drawings shall be shared to successful bidder after award.

General	<b>Drawings of Existing Hardware Not Available:</b> No drawings or specifications of the installed hardware have been provided in Tender. Without this information, it is not possible to assess interface compatibility or to ensure that the supplied insulator drawings align with the actual hardware in use.	
General	<b>Insulators Issued from O&amp;M Stores:</b> The replacement insulators are dispatched from O&M stores and may be used on any line depending on site requirements. Given this situation, it is not practically feasible for us, as an insulator supplier, to ensure or certify field-level compatibility.	
General	<b>EFM:</b> The ability to validate EFM is entirely dependent on the availability of actual installation drawings, including hardware configurations. Without access to accurate and complete hardware drawings (e.g., end fittings, corona ring dimensions), it is not feasible to conduct an EFM study or confidently verify compliance with the provided E-field thresholds.	
General	765kV 160kN & 210kN calls for the type test with Hexa Zebra conductor whereas 765kV 120kN & 210 kN calls for type test with Quad Bersimis.  Therefore, we are unsure of the Qty required for 210 KN with Quad Bersimis / Hexa Zebra for the project.	The insulators are required for O&M purposes and as such this information is not predetermined.

This corrigendum shall form an integral part of the bid documents and shall be read in conjunction with the same.
