		1	We kindly request you to provide the detailed material description along with the required quantity for 400kV Erection Hardware against BOQ Sr. Nos. 120 and 130 under the Supply Portion	The detailed material description of Erection Hardware is provided under Clause 3.1(A) of the Section-Project. Further, Clause 2.2.2 of the Section-Project expressly stipulates that the design and engineering of all materials covered under the Supply BOQ shall be in the contractor's scope. Accordingly, assessment of the detailed requirement and preparation of the BOM for Erection Hardware necessary for complete execution of the specified scope shall form part of the contractor's design and engineering responsibility. Bidders are therefore required to assess the complete requirement of Erection Hardware and quote for the respective BPS item(s) accordingly.
