

Clarification-1 to the Provision of Bidding Documents Dated 02.07.2020

Package Name(s): **Realignment/Shifting of +-800kV Champa-Kurushetra & +-500 KV HVDC Rihand - Dadri TL, Transmission Lines due to infringement of rail network of Jawaharpur Thermal Power Plant**

Specification No.- 5002001160/OTHERS/DOM/K00 - NR3 RHQ -1

S. No.	Query Raise by Prospective Bidder	As Clarified
1	<p>As in the technical Specification for Insulators and Hardware type test reports shall be for the test conducted within last 5 (five) years prior to the date of bid opening.</p> <p>But when we approached our vendors for Quotation for supply of insulator and hardware it came to our notice that none of the suppliers has type test reports of within last 5 years (As per Tender) and also as the supply quantities being very small carrying out type test free of cost is not practical for the manufactures.</p> <p>Now if we include the type test Cost (Which is huge) the tender cost may go well beyond off Limit. And also Type tests will require a minimum time period of 6 months that too will depend on the schedules of testing facilities.</p> <p>As on the above, we request you to kindly look into the matter and remove the ceiling of 5 years for validity of type test for both insulators and hardware. This will enable us to submit a practically viable bid.</p>	<p>Provisions of the bidding documents in this regard shall prevails.</p>
