|---------|--|---|--|
| 1.      | Price Schedule, Vol-III, Bidding documents | <p>1) During the meeting, we raised our query regarding the boring item for 1200 mm diameter piles. The BOQ specifies a total boring quantity of 2,400 RM; however, we observed that the BOQ includes only 30 nos. of Pile Integrity Tests (PIT). Based on the quantities provided, the average pile length works out to approximately 80 RM per pile, which we also discussed during the meeting. We request you to kindly review the PIT quantity in the BOQ and arrange for the necessary amendment.</p> <p>2) We understand from the information shared during the meeting that there will be 20 piles at each location, totaling 60 piles for the 3 locations.</p> | Kindly refer <u><b>Amendment No-I.</b></u> |
