

Clarification No-II(Technical)) dated 19/04/2026 to Volume-II of the Bidding Documents of 765kV Transformer Package 7TR-17-BULK for 19x500 MVA, 765/400/33 kV, 1-Ph Transformers under “Bulk Procurement of 765kV and 400kV class Transformers and Reactors of various Capacities (Lot-7)” . Specification no.: CC/NT/W-TR/DOM/A04/26/03972 □

Sl. No.	Ref Section	Provision in bidding document	Bidder's Queries	POWERGRID's Reply/Clarification
1	Transformer Technical Specification Rev08 Annexure-K	On-line insulating oil drying system (Cartridge type)	We request to keep the On-line insulating oil drying system (Cartridge type) as a separate line item in the BPS. Currently including it in the main transformer line item creates difficulties while dispatching & invoicing the equipment	In this regard, the provisions of Bidding Documents shall remain unchanged.
