MSE Purchase Preference/एमएसई खरीद वरीयता

MSE Purchase Preference/एमएसई खरीद वरीयता	Yes
---	-----

1. Bid reserved for Make In India products: : Procurement under this bid is reserved for purchase from Class 1 local supplier as defined in public procurement (Preference to Make in India), Order 2017 as amended from time to time and its subsequent Orders/Notifications issued by concerned Nodal Ministry for specific Goods/Products. However, eligible micro and small enterprises will be allowed to participate. The minimum local content to qualify as a class 1 local supplier is denoted in the bid document. All bidders must upload a certificate from the OEM regarding the percentage of the local content and the details of locations at which the local value addition is made along with their bid, failing which the bid is liable to be rejected. In case the bid value is more than Rs 10 Crore, the declaration relating to percentage of local content shall be certified by the statutory auditor or cost auditor, if the OEM is a company and by a practicing cost accountant or a chartered accountant for OEMs other than companies as per the Public Procurement (preference to Make-in -India) order 2017 dated 04.06.2020 . In case Buyer has selected Purchase preference to Micro and Small Enterprises clause in the bid, the same will get precedence over this clause.

2. Purchase preference will be given to MSEs having valid Udyam Registration and whose credentials are validated online through Udyam Registration portal as defined in Public Procurement Policy for Micro and Small Enterprises (MSEs) Order, 2012 dated 23.03.2012 issued by Ministry of Micro, Small and Medium Enterprises and its subsequent Orders/Notifications issued by concerned Ministry. If the bidder wants to avail themselves of the Purchase preference, the bidder must be the manufacturer / OEM of the offered product on GeM. Traders are excluded from the purview of Public Procurement Policy for Micro and Small Enterprises and hence resellers offering products manufactured by some other OEM are not eligible for any purchase preference. In respect of bid for Services, the bidder must be the Service provider of the offered Service. Relevant documentary evidence in this regard shall be uploaded along with the bid in respect of the offered product or service and Buyer will decide eligibility for purchase preference based on documentary evidence submitted, while evaluating the bid. If L-1 is not an MSE and MSE Seller (s) has / have quoted price within L-1+ 15% (Selected by Buyer) of margin of purchase preference /price band defined in relevant policy, such MSE Seller shall be given opportunity to match L-1 price and contract will be awarded for 25% (selected by Buyer) percentage of total quantity. The buyers are advised to refer the OM No. F.1/4/2021-PPD dated 18.05.2023 [OM No.1 4 2021 PPD dated 18.05.2023](#) for compliance of Concurrent application of Public Procurement Policy for Micro and Small Enterprises Order, 2012 and Public Procurement (Preference to Make in India) Order, 2017. Benefits of MSE will be allowed only if seller is validated on-line in GeM profile as well as validated and approved by Buyer after evaluation of documents submitted.

3. Reverse Auction would be conducted amongst first 50% of the technically qualified bidders arranged in the order of prices from lowest to highest. Number of sellers eligible for participating in RA would be rounded off to next higher integer value if number of technically qualified bidders is odd (e.g. if 7 bids are technically qualified, then RA will be conducted amongst L-1 to L-4). In case number of technically qualified bidders are 2 or 3, RA will be between all without any elimination. If Buyer has chosen to split the bid amongst N sellers, then minimum N sellers would be taken to RA round. In case Primary products of only one OEM are left in contention for participation in RA based on lowest 50% bidders qualifying for RA, the number of sellers qualifying for RA would be increased to get at least products of one more OEM (directly participated or through its reseller) if available. Further, if bid(s) of any seller(s) eligible for MSE preference is / are coming within price band of 15% of Non MSE L-1 or if bid of any seller(s) eligible for Make in India preference is / are coming within price band of 20% of non MII L-1, then such MSE / Make in India seller shall also be allowed to participate in the RA process.

PRICE ADJUSTMENT 1. General 1.1 Prices for work and materials covered under the scope of this Specification shall be furnished by the bidder in the manner specified in the Bid Form & Price Schedules. The bidder shall quote base prices for the Ex-Works price of the goods. These price components for certain goods, as specified, shall be subject to price adjustment to reflect changes in the cost of labour and material components as per the provisions given below: 1.2 The Charges viz. inland transportation, inland insurance, type test charges, etc. shall be firm and no price variation shall be payable for these components. 2. Ex-works Price Component The formulae for calculating the price adjustment to be applied to the Ex-works price component of Conductor will be as follows: $P1 = P0 \times \{0.15 + a \times (A1/A0) + b \times (B1/B0) + c \times (C1/C0) + l \times (L1/L0)\} - P0$ Where, P1 = Price adjustment amount, shipment-wise (if it works out negative, that would mean the amount to be recovered by the Purchaser from the Supplier). P0 = Ex-works price of Conductor. A, B & L are the indices for materials and labour as below: A = Monthly average of "Aluminum LME SELLER Settlement Price including Premium of Al Ingots and Customs duty converted in RS./MT" as published by IEEMA/Nationally recognized published price index for EC Grade Aluminum Ingots acceptable to the purchaser, in case index is not published by IEEMA. B = Nationally recognized published Price Index for High Carbon Steel acceptable to the Purchaser. C = Nationally recognized published Price Index for High Grade Electrolytic Zinc acceptable to the Purchaser. L = Indian field labour index - namely All India average consumer price index for Industrial Workers (monthly) (Base: 2016= 100), as published by Labour Bureau, Shimla, Government of India (www.labourbureaunew.gov.in). a = Co-efficient for EC Grade Aluminium Ingots, which shall be 0.65. b* = Co-efficient for High Carbon Steel, which shall be 0.13. c* = Co-efficient for High Grade Electrolytic Zinc, which shall be 0.02. l = Co-efficient for labour component, which shall be 0.05. (*) For bidders who intend to quote their prices based on High Tensile Galvanised Steel wire, the coefficient for the same (i.e. coefficient 'b' for High Tensile Galvanised Steel wire) shall be 0.15 and coefficient 'c' shall not be applicable. In such a case, B = Monthly Price exclusive of all duties of "High Tensile Galvanized Steel Wire (FE)" in Rs./MT as published by IEEMA/ Nationally recognized published Price Index for High Tensile Galvanized Steel Wire acceptable to the Purchaser, in case index is not published by IEEMA. 2.1 i) Subscript '0' refers to indices as on Calendar month preceding the month of opening of Bids, for materials & labour. ii) Subscript '1' refers to indices as applicable on Calendar month preceding the month of shipment, for materials & labour. 2.2 The total adjustment for Conductor shall not be subject to any ceiling whatsoever. 3. The above price adjustment provision shall be invoked by either party subject to the following further conditions: a) For the purpose of Price Adjustment on ex-works price components of the Goods, the month of shipment for Goods shall mean the Calendar month in which scheduled date of shipment or actual date of shipment, whichever is earlier, falls. Scheduled date of shipment will be ex-works date of despatch, governed by the accepted PERT Network/Bar Chart. However, when the Purchaser's specific approval for advancement of shipment has been obtained in such case the said advanced date shall be treated as the schedule date of shipment for the purpose of working out the price adjustment payable. No price increase shall be allowed beyond the original delivery dates unless specifically stated in the Time Extension Letter, if any, issued by the Purchaser. The Purchaser will, however, be entitled to any decrease in the Contract Price which may be caused due to lower price adjustment amount in case of delivery of Goods beyond the original delivery dates. Therefore, in case of delivery of Goods beyond the original delivery dates, the liability of the Purchaser shall be limited to the lower of the price adjustment amount which may work out either on schedule date or actual date of despatch of Goods. b) In case IEEMA does not publish any of the price indices, as mentioned above, the Bidder shall indicate any nationally recognised published index for respective items and the source of the same shall be furnished in the Bid. c) In case of non-publication of applicable indices on a particular date, which happens to be the applicable date for Price Adjustment purposes, the published indices prevailing immediately prior to the particular date shall be applicable. d) If the Price Adjustment amount works out to be positive, the same is payable to the Supplier by the Purchaser and if it works out to be negative, the same is to be recovered by the Purchaser from the Supplier. e) The Supplier shall promptly submit price adjustment invoices for the supplies made, positively within three (3) months from the date of shipment, whether it is positive or negative.

No price increase shall be allowed beyond the original delivery dates unless specifically stated in the Time Extension Letter, if any, issued by the Purchaser. The Purchaser will, however, be entitled to any decrease in the Contract Price which may be caused due to lower price adjustment amount in case of delivery of Goods beyond the original delivery dates. Therefore, in case of delivery of Goods beyond the original delivery dates, the liability of the Purchaser shall be limited to the lower of the price adjustment amount which may work out either on schedule date or actual date of despatch of Goods. b) In case IEEMA does not publish any of the price indices, as mentioned above, the Bidder shall indicate any nationally recognised published index for respective items and the source of the same shall be furnished in the Bid. c) In case of non-publication of applicable indices on a particular date, which happens to be the applicable date for Price Adjustment purposes, the published indices prevailing immediately prior to the particular date shall be applicable. d) If the Price Adjustment amount works out to be positive, the same is payable to the Supplier by the Purchaser and if it works out to be negative, the same is to be recovered by the Purchaser from the Supplier. e) The Supplier shall promptly submit price adjustment invoices for the supplies made, positively within three (3) months from the date of shipment, whether it is positive or negative.

PRICE ADJUSTMENT 1. General 1.1 Prices for work and materials covered under the scope of this Specification shall be furnished by the bidder in the manner specified in the Bid Form & Price Schedules. The bidder shall quote base prices for the Ex-Works price of the goods. These price components for certain goods, as specified, shall be subject to price adjustment to reflect changes in the cost of labour and material components as per the provisions given below: 1.2 The Charges viz. inland transportation, inland insurance, type test charges, etc. shall be firm and no price variation shall be payable for these components. 2. Ex-works Price Component The formulae for calculating the price adjustment to be applied to the Ex-works price component of Conductor will be as follows: $P1 = P0 \times \{0.15 + a \times (A1/A0) + b \times (B1/B0) + c \times (C1/C0) + l \times (L1/L0)\} - P0$ Where, P1 = Price adjustment amount, shipment-wise (if it works out negative, that would mean the amount to be recovered by the Purchaser from the Supplier). P0 = Ex-works price of Conductor. A, B & L are the indices for materials and labour as below: A = Monthly average of "Aluminum LME SELLER Settlement Price including Premium of Al Ingots and Customs duty converted in RS./MT" as published by IEEMA/Nationally recognized published price index for EC Grade Aluminum Ingots acceptable to the purchaser, in case index is not published by IEEMA. B = Nationally recognized published Price Index for High Carbon Steel acceptable to the Purchaser. C = Nationally recognized published Price Index for High Grade Electrolytic Zinc acceptable to the Purchaser. L = Indian field labour index - namely All India average consumer price index for Industrial Workers (monthly) (Base: 2016= 100), as published by Labour Bureau, Shimla, Government of India (www.labourbureaunew.gov.in). a = Co-efficient for EC Grade Aluminium Ingots, which shall be 0.65. b* = Co-efficient for High Carbon Steel, which shall be 0.13. c* = Co-efficient for High Grade Electrolytic Zinc, which shall be 0.02. l = Co-efficient for labour component, which shall be 0.05. (*) For bidders who intend to quote their prices based on High Tensile Galvanised Steel wire, the coefficient for the same (i.e. coefficient 'b' for High Tensile Galvanised Steel wire) shall be 0.15 and coefficient 'c' shall not be applicable. In such a case, B = Monthly Price exclusive of all duties of "High Tensile Galvanized Steel Wire (FE)" in Rs./MT as published by IEEMA/ Nationally recognized published Price Index for High Tensile Galvanized Steel Wire acceptable to the Purchaser, in case index is not published by IEEMA. 2.1 i) Subscript '0' refers to indices as on Calendar month preceding the month of opening of Bids, for materials & labour. ii) Subscript '1' refers to indices as applicable on Calendar month preceding the month of shipment, for materials & labour. 2.2 The total adjustment for Conductor shall not be subject to any ceiling whatsoever. 3. The above price adjustment provision shall be invoked by either party subject to the following further conditions: a) For the purpose of Price Adjustment on ex-works price components of the Goods, the month of shipment for Goods shall mean the Calendar month in which scheduled date of shipment or actual date of shipment, whichever is earlier, falls. Scheduled date of shipment will be ex-works date of despatch, governed by the accepted PERT Network/Bar Chart. However, when the Purchaser's specific approval for advancement of shipment has been obtained in such case the said advanced date shall be treated as the schedule date of shipment for the purpose of working out the price adjustment payable. No price increase shall be allowed beyond the original delivery dates unless specifically stated in the Time Extension Letter, if any, issued by the Purchaser. The Purchaser will, however, be entitled to any decrease in the Contract Price which may be caused due to lower price adjustment amount in case of delivery of Goods beyond the original delivery dates. Therefore, in case of delivery of Goods beyond the original delivery dates, the liability of the Purchaser shall be limited to the lower of the price adjustment amount which may work out either on schedule date or actual date of despatch of Goods. b) In case IEEMA does not publish any of the price indices, as mentioned above, the Bidder shall indicate any nationally recognised published index for respective items and the source of the same shall be furnished in the Bid. c) In case of non-publication of applicable indices on a particular date, which happens to be the applicable date for Price Adjustment purposes, the published indices prevailing immediately prior to the particular date shall be applicable. d) If the Price Adjustment amount works out to be positive, the same is payable to the Supplier by the Purchaser and if it works out to be negative, the same is to be recovered by the Purchaser from the Supplier. e) The Supplier shall promptly submit price adjustment invoices for the supplies made, positively within three (3) months from the date of shipment, whether it is positive or negative.
