2. Details of the connectivity with Southern grid to the Central grid. The details just include the company which was selected during tender quote, funds allocated, current status of it, power allocated for Tamil Nadu from the central grid currently and previously before the connectivity.

3. Details of Kudankulam nuclear power plant. The details include funds allocated, amount of power generated (do not want the power break up for each states because it is generated for my country only), Is it operated in real time currently or not, if no then the tentative date of real time operation and safety measures implemented in Kudankulam.

as may be appropriate may be transferred to that other public authority under intimation to the
