**Information sought by Sh. Vipul Kumar, Bhagalpur
under the RTI Act, 2005.**

The overhead transmission lines in the country are constructed as per the Central Electricity Authority's Regulations 2010/2011 viz. "Technical Standards for Construction of Electrical Plants and Electric Lines", "Measures relating to Safety and Electric Supply" & "Safety requirements for Construction, Operation and Maintenance of Electrical Plants and Electric Lines" as well as Bureau of Indian Standard IS: 5613.

These regulations, inter alia, stipulate various statutory clearances to be maintained while constructing a transmission line. Central Electricity Authority's Regulations 2010 (Measures relating to Safety and Electricity Supply) indicates the clearances of the overhead transmission line conductors from ground and other structures/buildings etc.
