Information Sought :

The advertisement Opportunities for M.Tech./ Ph.D. Professionals (Advt. No. CC/02.2015) came in February 2015 and I have applied for the same. I have been waiting for an update on my application since more than a year, I have tried calling on the contact number provided on the website but did not get any satisfactory response from authorities. Can you please answers following questions.

1. Why is the process is taking so long - its been more than 1.5 years of time since the advertisement came out and more than a year since the online application process closed.
2. What are these Masters/PhD qualified individuals are supposed to do in the meantime... I mean they must have waited for PGIndia to start the interview process but do you now expect them to return to PGIndias website to check status of their application every other day after a year.
3. When can I expect the interview process to start and what would be the gap (in months) between the selection date to joining date.
