Dear Sir

It is to inform you that an amount of around Rs. 32000/- has been deducted from my PF final settlement in 2015 for which the company has not provided any reason or details in spite of follow up at various levels. I was informed that it was a Board decision regarding recovery of PF on leave encashment availed by the employees. It is not clear when I have retired in 2012 how a decision taken in 2015 can affect me. So kindly provide me with the following details.

1. The copy of the Board Agenda along with all the supporting papers on this matter & the minute of the Board meeting authorising the recovery.
2. The ATN submitted to the Board in this matter
3. Copy of the court judgement on which the decision had been taken
4. Was the entire recovery made from salary or from the trust
5. If from the trust Copy of the minutes of the meeting of the trust to effect recovery.
6. Copy of the decision taken by then CMD Sh. S.K. Chaturvedi not to recover the amount already paid.
7. The total number of employees who have retired & have availed the benefit of PF on leave encashment & the total PF paid to them on leave encashment on the date of passing of Board resolution.
8. The total number of retired employees from whom the amount has been recovered & the total amount recovered from retired employees.
9. List of employees above the level of Manager along with their name who were paid PF on leave encashment & recovery not effected

The desired fee of Rs. ten is being submitted.  
Thanks

V C Jagannathan
