## Annexure-I

The point wise reply is as under:

1. After submission of all relevant documents & completion thereof, concerned Regional Head Quarter (RHQ) intimates the probable date of inspection, which is normally discussed with the concerned lab. Thereafter, inspection for approval of third party laboratory is carried out on the discussed date.
2. As per our policy, the laboratories accredited by NABL or an agency operating in line with ISO/IEC 17011 and having full membership & MRA of ILAC/APLAC are considered for approval. Only the scope accredited by the above mentioned agencies & as per requirement of POWERGRID projects is approved.
3. The construction material testing is in the scope of our main contractors and they get the testing done at third party labs. However, it is ensured by us that the laboratory, where tests are being performed, confirms to the qualifying requirements of POWERGRID.
