Point wise reply is given below:

Query 1: We assume that there is close coordination within PGCIL, in its function as a transmission licensee and as the CTU, on various transmission projects. Please provide the copy of communications, meeting details and minutes thereof along with all correspondence between PGCIL and CTU, since 1 June 2018, on transmission projects related to Green Energy Corridor, whether under Regulated Tariff Mechanism or TBCB mode bidding.

Reply: POWERGRID is notified as Central Transmission Utility (CTU) so there is no separate correspondence between POWERGRID & CTU regarding coordination activities of various transmission projects. Moreover since 1 June 2018 there is no transmission projects related to Green Energy Corridor under regulated tariff mechanism or TBCB mode bidding.

Query 2: We understand that the Ministry of Power has already given the go ahead to start work on Green Energy Corridor under regulated tariff mechanism route. In this regard please provide the copy of communication between PGCIL and Ministry of Power pertaining to Green Energy Corridor projects allocated under regulated tariff mechanism route in the last 6 months.

Reply:

No transmission scheme pertaining to Green Energy Corridor projects has been allocated to POWERGRID under regulated tariff mechanism route in the last 6 months.

Query 3: We understand that there was a separation scheme framed and implemented by the Ministry of POWER for separating PGCIL dual role i.e. that of a transmission Licensee and CTU. Please share the details and progress of any such scheme which has been implemented and also further proposal thereon under consideration.

Reply:

We have no details for such separation scheme framed and implemented by MoP.
