Point wise reply of the queries pertaining to RTI -50478 is given below:

Query 1.: Details of the formation of the four-level Committee formed for conducting the Quality Assessment of the insulators supplied by Modern Insulators Ltd for the subject project in 2013.

Query 2.: Observations and internal noting of the Four level Quality Committee

Query 3.: Quality Committee Report of the above project.

Reply to Query 1,2 & 3: Quality Committee Report is commercial confidence in nature and is an intellectual property of POWERGRID. Hence exempted under section 8(1)(d) of RTI act 2005.

Query 4.: Evaluation Report related to the above project.

Query 5.: Minutes of Meeting of the Board in relation to the above project.

Reply to Query 4 & 5.: The Evaluation Report contains information such as bid credentials submitted by the bidders, technical and commercial documents of the bidder etc. Such information includes commercial confidence, Trade Secrets, the disclosure of which could harms the position of the third party and the same cannot be provided under section 8(1)(d) of RTI act 2005.

In the event, if the requester desire to inspect specific documents/records which includes any data related to the bid submitted by the bidders; requester can provide us the details in writing and as per his requirement, letters will be sent to all the participated bidders regarding disclosure of requested document under this package. In case, the written submission(s) is/are received from bidders, the said documents shall be made available to you on payment of applicable charges.

Query 6.: As per the requirement for the project two types of insulators were to be purchased i.e., 160KN and 120KN. Why were insulators of only 120KN purchased?

Query 7.: On what basis were the 160KN insulator rejected. Please provide detailed report.

Query 9.: What are the repercussions of using 120 KN insulators for the whole project instead of using a combination of 120 KN and 160 KN insulators are required.

Reply to Query 6, 7 & 9 : In the 765kV D/C Kurnool - Thiruvalem line, 120kN insulators were neither envisaged nor procured nor used since it is not a design requirement. 160kN insulators were required as per design and were procured.

Query 8.: Details of the raw materials used in 120 KN Insulators and 160 KN Insulators. What are the differences between 120 KN and 160KN Insulators.

मिश्राप्रालिमिंह
06/12/2019

Reply to Query 8: Details of materials used in porcelain insulators as per standard specs of POWERGRID which is standard for both 120 & 160 KN porcelain insulators is given below:

1. Porcelain
2. Glaze
3. Toughened Glass
4. Cement
5. Pins and Caps
6. Security Clips

Query 10.: What are the repercussions of non-implementation of the terms of the Tender.

Reply to Query no. 10: You may note that the query is not covered under the definition of 'information' as defined under RTI Act 2005 as follows:

"information" means any material in any form, including records, documents, memos, e-mails, opinions, advices, press releases, circulars, orders, logbooks, contracts, reports, papers, samples, models, data material held in any electronic form and information relating to any private body which can be accessed by a public authority under any other law for the time being in force;"
