Sir,

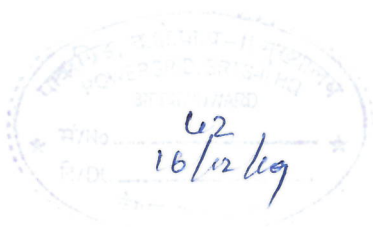

I preferred on complaint 22.08.2019 for the damages of agricultural crops occurred due to the drawing of 400KV line through a property to the Special Tahsildar, Powergrid Cooperation, Pathanapuram and the said complaint has been forwarded to Deputy General Manager, Powergrid Corporation of India, Omalloor P.O., Pathanamthitta by the Tahsildar. But the Deputy Manager have visited the property and no steps has taken by the Deputy Manager for redressing my grievance. Hence kindly reply to my doubts mentioned hereunder.

1. Why my complaint has not been considered till date?
2. Why my property was not instructed at the time of inspection of other properties.
3. What is the basis for giving compensation for betel leaves, banana tree, taro roots, yam etc..
Why you are not inspecting or visiting my property and ascertaining the list of damages.
4. Why you are not ascertaining standing trees in my property.
5. What is the difficulty to ascertain the damages in my property
6. What is the basis for ascertaining damages if the branches of the standing trees are removed and how will be the damages be ascertained?
7. Whom should I approaches for obtaining the damages. Are you liable for the law sustained for drawing of line through my property. The drawing of power line will also render my property useless.

Yours faithfully,

Name Santhoshmon M
