Sub.: Reply to RTI Query by Shri C N Suresh Babu, Karnataka.

Query:

Please provide the copy of circular/ guidelines issued in respect of payment of compensation bore well, houses etc., came under transmission line during construction and also payment compensation to land occupied by tower and corridor?

Reply:

With regard to compensation for bore well, houses etc., compensation for structure is payable in case the structure needs to be removed to maintain electrical clearance as per Central Electricity Authority(CEA) (Measures relating to Safety and Electric Supply) Regulation, 2010 notified by Central Electricity Authority vide Gazette dated 20.09.2010. For assessing the eligibility of compensation, the regulation of CEA may be referred. The regulations are available on https://cea.nic.in/regulations-category/measures-relating-to-safety-and-electric-supply/?lang=en. For assessing the value of such structures, local PWD officials/ revenue authorities are also consulted.

As regard payment of compensation for land occupied by tower and corridor, it is to inform that Ministry of Power (MoP) issued guidelines on 15.10.2015 for payment of compensation towards damages in regard to Right of Way for transmission lines which provides payment of 85% of land value for tower base area and 15% of land value towards diminution of land value in the width of Right of Way (RoW) corridor subject to adoption/ implementation by States/ UTs. The MoP guideline is available on following link:

http://powermin.nic.in/sites/default/files/uploads/Guidelines for payment of compensation towards damages in regard.pdf

MoP has also issued guidelines on 16.07.2020 regarding payment of compensation in regard to Right of Way for transmission lines in urban areas which are available on https://powermin.nic.in/sites/default/files/webform/notices/Urban RoW Guidelines 0.pdf
