

Reply for RTI query query-00323-Shri Ankit Kumar

Input pertaining to CTU Dept is as below:

Reasons behind planning a less optimal and less economical system may be provided because it only burdens the consumers. Any investment in transmission ultimately burdens the consumer.

Reply: The reasons behind planning of transmission system for evacuation of power from Neemuch SEZ (1000MW) as well as deliberations held amongst various stakeholders in this regard are captured in the minutes of the 3rd WRPC(TP) meeting held on 14.06.2021, which are self-explanatory in nature. The minutes are available on CEA website at following link:
