**ORDER**

**Grounds of Appeal**

The Appellate Authority has received an online appeal bearing number **PGCIL/A/E/21/00051 dated 01.11.2021** from Mr. Ramesh Kumar, (appellant). Earlier, the appellant herein had filed an online RTI application bearing number **PGCIL/R/E/21/ 00385 dated 08.09.2021**, with the CPIO Corporate Centre, seeking information pertaining to details of concrete cubes and cores along with copies of test reports where test results of such concrete cubes and cores were found less than designated characteristics strength during last two years in various substation and TL construction projects of POWERGRID and provide details of disciplinary action initiated/taken against officials (upto E-8 level) who supervised such works. .

**Order:**

I have seen the RTI application dated 08.09.2021, filed by the appellant, wherein he had sought the information as stated above. I have also perused the reply dated 04.10.2021 sent by the CPIO wherein CPIO has stated that information sought is very generic and voluminous in nature and compiling such voluminous information will disproportionately divert the resources. I find merit in the submission made by the CPIO. The appellant may specify the transmission line/sub-station for which he is desirous of seeking information and the CPIO shall provide the same subject to exceptions if any.

The appeal is accordingly disposed of.
