अनुलग्नक-1

Sub: Reply to RTI Request of Shri Neeraj Vagholikar, Pune, Maharashtra

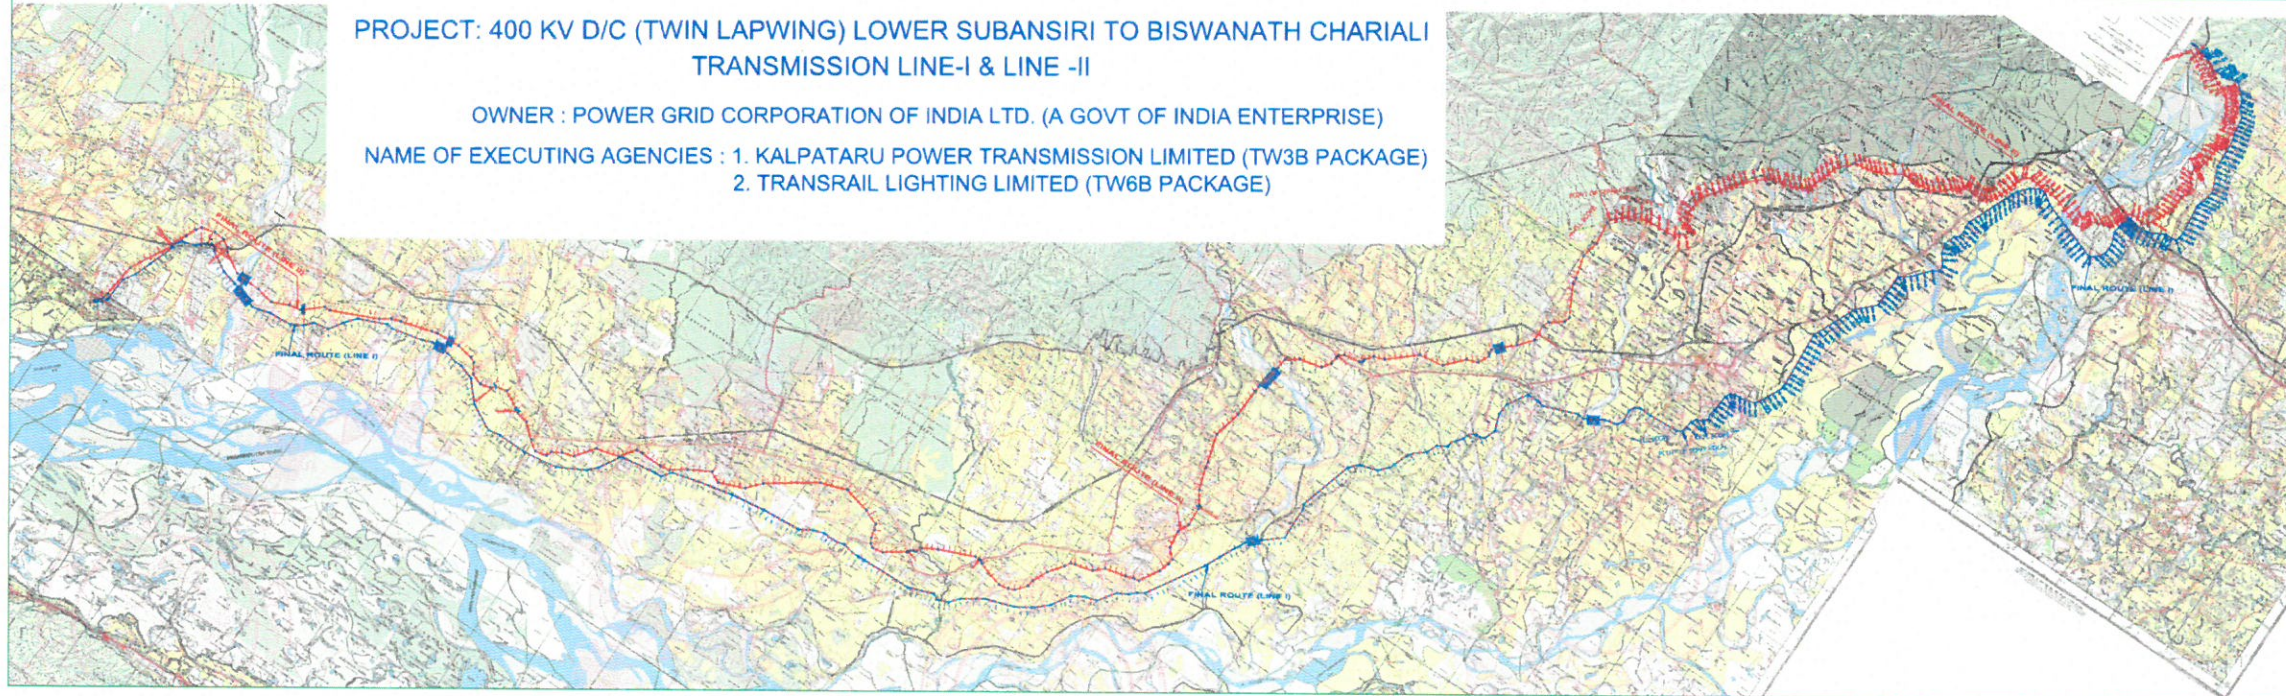

Sl. No.	Information sought:	Reply:
1.	Details of alignment of all four 400 kV Double Circuit HVAC transmission lines which will be built to evacuate power from the 2000 MW Subansiri Lower hydroelectric project to Biswanath Chariali.	Details enclosed at Annexure-A .
2.	Complete details of forest land to be diverted for all four transmission lines (names of forest areas, area to be diverted, copies of all diversion proposals for diversion of forest land etc. including maps of alignment of all four transmission lines shown together through forest land)?	2 lines i.e. 400 kV D/c Lower Subansiri-Biswanath Chariali I & II are being implemented. Line I involves diversion of 32.78 ha forest area and Line II involves diversion of 34.32 ha forest area in Assam, forest proposals for diversion of forest area for these lines have been submitted on PARIVESH portal of MoEFCC. The PARIVESH portal is online portal and all information pertaining to forest proposals of both lines are available online on public domain. For reference purpose, the proposal numbers are FP/AS/TRANS/36517/2018 (32.78 ha) & FP/AS/TRANS/40419/2019 (34.32 ha) which are available on http://forestsclearance.nic.in/Online_Status.aspx .
3.	Copy of any environmental/wildlife/biodiversity impact assessment study done to examine impacts of all four transmission lines individually and cumulatively?	With regard to Environmental Impact Assessment (EIA), it is informed that Transmission projects have been kept out of the purview of Environment Impact Assessment (EIA) Notification of 1994 and 2006. Hence, requirement of taking up environmental impact assessment of the project and prior environmental clearance from MoEFCC as mandated under Environment Impact Assessment (EIA) Notification is not applicable for transmission projects. Further, with regard to wildlife/biodiversity impact assessment study, the instant proposed forest area is not a part of any protected area and hence does not require any separate Wildlife/ Biodiversity Assessment study. Moreover, such type of study is only mandated in case more than 50 ha protected area is involved.
4.	Names of all financial institutions which are providing funding for all four transmission lines evacuating power from Subansiri Lower Project to Biswanath Charilai.	Domestic funding is being used for all four circuits of transmission lines evacuating power from Subansiri Lower Project to Biswanath Chariali.

हरिवाङ्माल

PROJECT: 400 KV D/C (TWIN LAPWING) LOWER SUBANSIRI TO BISWANATH CHARIALI TRANSMISSION LINE-I & LINE -II

OWNER : POWER GRID CORPORATION OF INDIA LTD. (A GOVT OF INDIA ENTERPRISE)
