

## **Point wise Reply to the appeal raised by applicant**

**How does the CPIO expect the applicant to know the full form of abbreviation CTUIL?**

Reply: Since the applicant's query pertained to Power Sector wherein reference to companies like POWERGRID & NTPC were made, it was assumed by CPIO, in normal course, that the applicant was aware of major power sector organizations like CTUIL. The full form of CTUIL is Central Transmission Utility of India Limited which is a fully owned subsidiary of POWERGRID.

**Also, does the response pertains to a particular section of Powergrid or the entire organization.**

Reply: The reply provided by CPIO pertains to CTUIL.

**Hence, as such the response provided is incomplete and misleading.**

Reply: It is reiterated that CTUIL does not communicate any peak and average power demand requirements to any generator including NTPC.

**Please conduct hearing for the appeal at the earliest so that the applicant can explain the matter in detail.**

Since, the matter does not pertain to CTUIL, so hearing on the issue is not required.
