Text of RTI First Appeal :	<p>Replies of PIO are self contradictory and ambiguous. 1. Replies against point nos. 1 & 2 vis-a-vis that against point 3: When Powergrid doesnot differentiate between travel within India and outside India, then there is no ground for seeking information and documents as mentioned in reply against point 3. There is no ground for seeking information as sought against (g) to (j) of reply at sl no. 3, particularly considering the reply against point no. 4. Further, the statement as mentioned at paragraph 2 of reply against point 3 is valid for domestic travel as well, then there is no ground for seeking such declaration for foreign travel only. Either this declaration will be sought for both domestic and foreign travels, or for none of the travels. 2. Refer reply against points 5 and 6 : When there exists no underlying guidelines from DPE in respect of foreign travels, then there is no ground for putting restrictions whatsoever on foreign travels by executives of Powergrid. Replies given by PIO reflect mindset of past which was prevailing prior to liberalization of Indian economy. Replies given by PIO are contrary to present realities and possibilities. Kindly give categorical and unambiguous reply.</p>
