Grievance Description

New Development in the matter - January 23.

According to news 300 Airplanes order , is in consideration for being increased to 500 Airplanes order.

Tata group was asking only discount in Airplanes order from Seller of Airplanes (Boeing/Airbus).

In place of only finding discount , the Airplanes can itself be manufactured in the nation.

500 Airplanes would cost around 4.5 to 5 lakh crores , in purchase.

Grievance Status for registration number - PMOPG/E/2023/0025896 , 2nd part.

Development in the matter , Dated 19 Nov 22 requiring great consideration.

In the news published in newspaper Dainik bhaskar Dated 19 Nov 22, Tata group is considering placing order of 300 Airplanes. Copy attached.

This order will be , one of a Largest Order in Aviation history.

If one Airplane price is taken to be Rs 1000 crores , it will cost Rs 300000 crores or Rs 3 lakh crores.

Boeing and Airbus are both competing for order.

It is advised to the Government to tell the Seller of Airplanes to manufacture the Airplanes in the nation , as it is the most opportune and correct moment for manufacturing airplanes in the nation.

Considering such large amount of Monetary consideration in the order , the Seller will definitely agree.

It can be noted the same has been done also in the case of C295 Airplanes.

It will be a major achievement of Government.

Ashish Shankar
