It is clearly understood that the electrical pole lines will fall within the land of many private individuals and farmers and that crop compensation has also been paid respectfully to the concerned owners of the land thus the authority is sure to have a list of the crop compensation receivers along with the survey done on the land encroached.

The request of the above mentioned, placement of inter-state electrical grid lines between the above mentioned locations fall important to me for my personal research work.

It is my humble request that **the List of Crop Compensation paid by the Power Grid Corporation India Limited (PGCIL) containing the details of the crop compensation receivers** between the above mentioned no. 1-5 locations be provided and be informed as to when the information can be provided.
