PDF Page- 3 to 6). It is quite clear in the mechanism for project appraisal and approval that DRC will ensure that there is no duplication of work while recommending the project. PFC (nodal agency) will appraise and recommend the DPR for approval of monitoring committee chaired by secretary power. On 2nd of may, 2013 in an RTI, PFC provided the information that, There is no such ID supported system in the project area which metering billing collection is being done manually by different aspects as defined under R-APDRP, feeder and energy loss is being calculated as well as by the concerned utility. 3. In February, 2010 a training program was also scheduled for MVVNL staff for consumer indexing and computerized billing. (ANNEXURE 4. PDF Page- 7). The training was completed too but this exercise of making computerized billing centers, consumer indexing was never used, all the expense was wasted. On one hand in December, 2010 computerized billing center was handed over to MVVNL Rae Bareli and on the other hand the same work was awarded by PFC in R-APDRP part A. Provide information.

Sir, above all the RTI which I am presenting should also be entertained as a complaint regarding misuse of government money, hiding the real information and misleading the steering committee regarding the status of Rae Bareli town.

Sir, actually I repeatedly raised this issue with MVVNL, PGCIL and PFC but all went in vain. The important development works were cut short and the money was wasted in doing that work which was never taken in use. The whole matter also needs an in-depth inquiry too.
