P.T.O

	made locally after obtaining the approval of route alignment by the competent authority.	line route. During execution of works at site, due to various factors like techno economical/statutory clearance requirements, soil conditions etc, fine tuning of the route will be necessitated for which approvals are being taken time to time from corresponding DGM associated with the project. On completion of the entire works, comprehensive approval for the entire constructed line route will be obtained from General Manager(Projects),SR-II,Banglore.
5	From whom you have got permission for changes made if any in approved Route Alignment of towers and transmission Line?	From DGM of the project site.
6	Furnish a copy of initially approved route map and tower point approved by the higher officials	As stated in the reply against query no. 2 above, Transmission Line Survey/route alignment is being carried out by mapping the aligned route on geographical topo maps published by Survey of India .As Survey of India prohibits reproduction of maps, we are not in a position to issue copy of the approved route map of the transmission line. However, the sought document can be viewed at our Erode Office with prior appointment. The address is as mentioned at Sl. No 2 above
7	Furnish a copy of the approved route map and tower point after incorporation of changes made locally.	The required details will be available on completion of entire works only as the works are under progress.
8	Furnish the details of permission granted for total angle point towers (including no. assigned for angle points) in Salem District.	In Salem District, total no. of Angle towers is 62,from 45/0 to 106/0 as on date.
