Information Sought :	What is the reason for transferring power from raigarh in chhattisgarh to Tiruppur in Tamil Nadu to Thrissur. Are there any developmental projects responsible for this transmission. I want to know the reason behind the transmission line and there are protests going over here in Tamil Nadu regarding the electric towers being installed in farmlands. What would be the side effects due to installation of towers in farm fields and how are the farmers going to be compensated for the loss. Can the installation of towers can be done through any alternative ways avoiding the farm field. Due to paasage of high voltage lines, are there any safety issues involved.
