Information Sought : Project Name-800KV Raigarph - Pugalur HVDC Bipole Link, Power Grid Corporation of India Limited.
Subject -Requesting Height ,horizontal and Vertical tolerance 800 KV HVDC conductor from North Border of building presence in the land survey number- 292/1A2 in between 800Kv Tower no 178/1 and 178/2.

Respected Sir/Madam,
According to reply from RTI from Power grid Corporation of India ,
Date :22-Oct-2019 and reference number: PGCIL/R/2019/50429 refer attached document file House_diagram.pdf.
Below List of Queries,
- My Residence House no 2/140 (Land survey number :292/1A2) @ Patlur village , Tiruchengode (TK) in between 800Kv HVDC Tower No 178/1 and 178/2. Building is not in straight line , can you please share whether the tolerance is still maintained from North side to South side of the House. Refer the attached file of the @House_diagram.pdf, for fig-1 obtained from Google map.
- In North Border of house(refer the Fig1 in the attached file), height of wall is not 4 Meters, Request you to share the Transmission Line Conductor passing height , Horizontal and Vertical distance from North Border of wall.
- Any survey report issued by the project team starting about the clearance being met. and when it was reported and share date. Because I am aware of the 800 kV HVDC measurement survey they marked in State Highway (SH-198) was cancelled with previous measurement of LP and currently work is in progress with new measurement of LP , I am attaching reference for -House_diagram.pdf ,fig-2 for LP.

Building Address-
Shanmugarajan Ponnusamy,
S/o, P K Ponnusamy ,
2-140 ,Patlur Village ,

Patlur Post ,
Solasirmani Via ,
Tiruchengode TK,
Namakkal Dist,
Tamil Nadu 637210.
