Is Requester Below Poverty Line ? :	No	Citizenship Status :	Indian
Amount Paid :	10)	Mode of Payment :	Payment Gateway
Does it concern the life or Liberty of a Person ? :	No(Normal)		
Request Pertains to :	<p>Respected Sir/ Madam,</p> <p>Myself Harikrishna an aspiring agriculturalist residing in Nagarakalandhai village which comes under malaipalayam village administration in sulur taluka of Coimbatore district in the state of Tamilnadu. We are planning to build a house in our agricultural land by pouring in all of our cash earned during the past 25 years by my parents and grand parents. Recently people from powergrid corporation of India came in Mahindra Xylo cars and the stopped near the public bus stop in our village and did a survey to lay the path for a new electricity transmission tower using drones. After that some people came for marking the places where the transmission posts are to be planted. We tried speaking with them to know the arbitrary path so that we can adapt to the power line and decide upon the final place to build our house but they didnt even hear us and mostly they dont speak any common language. Note that the work has already started for building the house at a specific place inside our land(10.8165527, 77.1711934). The issue now is we are not informed properly about the path of the line and the clearance distance needed to build a house. As far as I know there will be Electromagnetic waves that will be created due to the extremely high voltage that is there in the lines. So Please share me the map / path for the newly proposed power line which passes from east to west. We dont know anyother information. I will attach a Google map location so that you can get an idea that where am I asking for. The coordinates are 10.8161305, 77.1717034.</p> <p>Waiting for your reply and please note that Iam not against such infrastructure development plans. I just wanted to be safeguard my house and my dear family from the EM waves that are produced on</p>		

such power lines by building the house in a safe place.
Thankyou.
