Dear Sir,

M/s Devi Construction worked as gang/ Labor contractor in various project in Western Region. Their due payment against the execution work against different contract could not be paid in totality because it took some time to reconcile their account and to derive the balance payable amount against all the Work Orders for execution of the Project under Western region.

Meanwhile, by the time we reconciled & concluded final amount payable to the subcontractor combining all the contracts executed for different projects in Western region, M/s EMC Limited came under acute financial crisis.

Now, we have reconciled the entire dues with the agency(M/s Devi Construction) against various subcontracting Orders issued by M/s EMC Limited for execution in different projects & accordingly a NOC/Settlement of payable amounting to Rs. 14,00,000/- has been mutually agreed between M/s EMC Limited & M/s Devi Construction . The Copy of the NOC/Settlement of the agency is also enclosed for your kind reference.

Since, M/s EMC Limited is still undergoing the insolvency resolution process; we are unable to pay them the agreed settlement amount.

You may be aware that M/s. EMC Limited is presently passing through financial constraints and to overcome this situation will take certain time. Besides, non-release of the payment to the various agencies, may not only create problem by representation but also they may disturb the ongoing projects since many agencies are common in executing the projects under Powergrid.

Considering the above we request you to directly release the payment to the various agencies, as certified by EMC as per attached annexure- A. We hereby authorize Powergrid to release such payment from our receivables (available / current and / or future) on account of running payment, withheld payment, PV Bills, final payment, retention amount against supply and erection and or any other payments from the captioned projects.

Besides we also authorize Powergrid, in case of non-availability of any dues from the captioned projects on any Region, the same can be paid and adjusted from any dues available with Powergrid for any Region or any other contracts available with Powergrid.

We would request you to kindly co-operate with the present situation as detailed above and also various discussions and decision taken by Powergrid in this regard in implementation of various contracts.

Dear Sir,

You may be aware that M/s EMC Limited is presently passing through financial constraints and to overcome this situation will take certain time. In order to liquidate the liabilities for ongoing projects as well as the completed projects, we are proposing through release of direct payment to the list of liabilities as certified by EMC from our any due payment against ongoing contracts, closed contracts etc. You will appreciate that since we are not able to meet the liabilities due to present financial constraints these parties are constantly pursuing us as well as they are also pursuing with Powergrid, as the Powergrid is the principal employer.
